# 1) ER and Relational diagram, Indexes

### ER diagram:

#### **Relational Diagram:**

Κάθε σχέση που υπάρχει στο Relational Diagram αντιστοιχεί σε κάποιο entity από το ER Diagram και διαθέτει ένα μοναδικό ID που εξασφαλίζει την μοναδικότητα του κάθε tuple για να μην έχουμε αντίγραφα. Τα tables που χρησιμοποιήσαμε είναι τα εξής:

• School Unit: Έχει ως attributes τα School\_ID, Address, City, School Name, Full name of the school Director, Library's Operator full name, Phone number, Email, administrator\_id, Status με primary key το School\_ID το οποίο είναι αρκετό να εξασφαλίσει την μοναδικότητα. Επίσης όλες οι σχολικές μονάδες ελέγχονται από τον μοναδικό διαχειριστή, το οποίο administrator ID είναι και foreign key. Το status διακρίνεται σε 'approved', 'not yet approved', 'denied', ώστε να

- ξεχωρίζουμε ποιες σχολικές μονάδες είναι εγκεκριμένες από τον administrator και ποιες όχι.
- Administrator: Έχει attributes τα administrator\_id, username, password
  με primary key να είναι το administrator\_id του. Είναι ένας και έχει
  έλεγχο για όλες τις σχολικές μονάδες.
- Operator: Mε attributes τα operator\_id, administrator\_id, Username, Password, Full\_name, operator\_email, operator\_phone\_number, School\_id, Status με primary key operator\_id και 2 foreign keys από τα οποία το ένα είναι το School\_id που δείχνει με ποια σχολική μονάδα είναι δηλωμένος ο κάθε Operator. Το άλλο foreign key είναι το administrator\_id το οποίο δείχνει ότι ο administrator ελέγχει τις αιτήσεις των operators. Το status διακρίνεται σε 'approved', 'not yet approved', 'denied', ώστε να ξεχωρίζουμε την κατάσταση των αιτήσεων εγγραφής ενός operator, τις οποίες εγκρίνει ή απορρίπτει ο administrator.
- Student\_Professor: Mε attributes τα stud\_prof\_id, Fullname, Role, Approval\_status, School\_id, operator\_id, Username, password, Email, Phone number, Date\_of\_birth ορίζει τους μαθητές/καθηγητές ανά σχολική μονάδα. Το role δείχνει την ιδιότητα της οντότητας (Μαθητής/Καθηγητής), ενώ το approval status αν έχει εγκριθεί ο λογαριασμός από τον operator που είναι υπεύθυνος. Έχει ως primary key το stud\_prof\_id το οποίο είναι μοναδικό ανά οντότητα και έχει 2 foreign keys με το ένα να είναι το school\_id που δείχνει σε ποια σχολική μονάδα ανήκουν ενώ το άλλο να είναι το operator\_id που είναι ο υπεύθυνος της αντίστοιχης σχολικής μονάδας (από τον operator εξαρτάται το Approval status).
- Borrower\_card: Με attributes Card\_id, Expiry\_date, Operator\_id, stud\_prof\_id, Issue\_date και primary key να είναι το Card\_id, ανήκει σε κάθε χρήστη ο οποίος έχει γίνει αποδεκτός από τον αντίστοιχο operator της εκάστοτε σχολικής μονάδας. Επομένως foreign key τα operator\_id και stud\_prof\_id.
- Book: Έχει ως Attributes το Book\_ID, Title, Publisher, ISBN, Number of pages, Summary, Available copies, Image, Language, Key Words, School\_ID με primary key το Book\_ID του καθενός και 1 foreign key το School\_ID που δείχνει την σχολική μονάδα που αναφέρεται. Τα Available copies είναι για κάθε σχολική μονάδα.
- Book's Thematic Categories: Έχει ως foreign key το Book\_ID και έχει ως primary key το Thematic Category και Book\_ID (καθώς είναι ένα multivalued attribute)
- Book's Authors: Είναι επίσης multivalued attribute και έχει ως attributes τα Book\_ID, το οποίο είναι και foreign key και το Author μαζί με το Book\_ID ως primary key.
- Book Borrowing: Έχει attributes τα borrowing\_id, Book\_ID,
   Borrowing\_Date, Return\_Date, Actual\_return\_date, Stud\_prof\_id,

- Operator\_id. Ως primary key έχει το Borrowing\_id με foreign keys book\_ID, Stud\_prof\_id και operator\_id. Οι δανεισμοί ανάλογα το role του Stud\_prof\_id έχουν διαφορετικούς κανόνες ενώ περνάνε από έγκριση του operator.
- Reservation: Τα Attributes που έχει είναι τα Reservation\_id, Book\_ID, Reservation\_date, Status, Expiry\_date, Stud\_Prof\_id, Operator\_User\_id. Λειτουργούν όπως τα οι δανεισμοί (ανάλογα το role) και τις διαχειρίζεται ο κάθε operator της αντίστοιχης Σχολικής μονάδας. Το status αναδεικνύει εάν μια κράτηση είναι ενεργή (active) ή ανενεργή (expired). Το primary key του είναι το Reservation\_id ενώ τα foreign keys είναι τα Book\_ID, Stud\_Prof\_id, Operator\_User\_id.
- Review: Έχει τα attributes Review\_id, Book\_ID, Rating, Status, Review\_Text, operator\_id, Stud\_prof\_id, Review\_date με το Review\_id να είναι το primary key του. Αντίστοιχα τα foreign keys είναι τα Book\_ID το οποίο δείχνει σε ποιο βιβλίο αναφέρεται το κάθε review επίσης το operator\_id ώστε να ελέγχει το review και να το εγκρίνει αν είναι από μαθητή, ενώ το stud\_prof\_id είναι ο χρήστης που έκανε το review. Το Status διακρίνεται σε 'approved', 'not yet approved' και 'denied', ώστε να ξεχωρίζουμε τα κακόβουλα reviews (denied), από τα όχι ακόμα ελεγμένα από τον operator (not yet approved) και από τα εγκεκριμένα από τον operator τα οποία μπορούν να τα βλέπουν και τα υπόλοιπα μέλη της βιβλιοθήκης.

Στην συνέχεια, προσθέτουμε κατάλληλα indexes προκειμένου να επιταχύνουμε την εκτέλεση των ζητούμενων queries. Δεδομένου ότι η βάση μας υλοποιεί μια βιβλιοθήκη τότε δεν θα ήταν αποδοτικό να βάλουμε indexes σε collumns από tables στα οποία γίνονται συχνά transactions/update/insert/delete, όπως είναι collumns που αφορούν ημερομηνίες δανεισμού, κατάσταση δανεισμού κλπ. Έτσι λοιπόν επιλέγουμε να βάλουμε ευρετήρια σε attributes τα οποία δέχονται μικρό αριθμό από αλλαγές όπως τίτλος βιβλίου, συγγραφέας και κατηγορία:

```
--
-- Indexes
--
CREATE INDEX idx_title ON book(title);
CREATE INDEX idx_author ON book_authors(author);
CREATE INDEX idx_category ON
book_thematic_categories(thematic_category);
```

Ένα παράδειγμα έντονης χρήσης των indexes: idx\_title, idx\_author, idx\_category αποτελούν τα queries 3.2.1) και 3.3.1) στα οποία ζητείται να γίνει εύρεση βιβλίων με βάση τον τίτλο, την κατηγορία και τον συγγραφέα.

# USER MANUAL ΤΗΣ ΕΦΑΡΜΟΓΗΣ

Ανοίγοντας την εφαρμογή βλέπουμε την παρακάτω εικόνα:

Στην κεντρική φόρμα συμπληρώνει τα στοιχεία του ένας χρήστης(καθηγητής ή μαθητής) που είναι ήδη μέλος της σχολικής του βιβλιοθήκης(έχει γίνει δηλαδή δεκτό το αίτημα εγγραφής του από τον αντίστοιχο Χειριστή). Εάν το αίτημα εγγραφής του χρήστη δεν έχει γίνει αποδεκτό ή ο λογαριασμός του έχει διαγραφεί ή απενεργοποιηθεί , ο χρήστης δεν μπορεί να κάνει login στην εφαρμογή. Πάνω αριστερά , βλέπουμε τρία κουμπιά : Έγγραφή βιβλιοθήκης', 'Είσοδος Χειριστή' και Έγγραφή νέου μέλους' . Πατώντας το κουμπί Έγγραφή βιβλιοθήκης' μεταφερόμαστε στην παρακάτω φόρμα υποβολής . Στην συγκεκριμένη φόρμα τοποθετεί ο εκάστοτε υποψήφιος Χειριστής ,μιας νέας Σχολικής Βιβλιοθήκης που θέλει να ενταχθεί στο σύστημα, τα στοιχεία της Σχολικής του μονάδας καθώς και τα δικά του στοιχεία επικοινωνίας. Η συγκεκριμένη αίτηση γίνεται δεκτή ή απορρίπτεται από τον Κεντρικό Διαχειριστή . Μέχρι την έγκρισή της ο Χειριστής δεν έχει πρόσβαση στο σύστημα.

Αφού συμπληρωθούν όλα τα πεδία της παραπάνω φόρμας για να καταχωρηθεί η αίτηση πρέπει να πατηθεί το κουμπί 'Submit'. Εάν η αίτηση καταχωρηθεί με επιτυχία τότε μετά το πάτημα του κουμπιού θα πρέπει να μεταφερθούμε απευθείας στην αρχική σελίδα.

Πατώντας το κουμπί Έγγραφή νέου μέλους' της αρχικής σελίδας μεταφερόμαστε στην παρακάτω φόρμα εγγραφής:

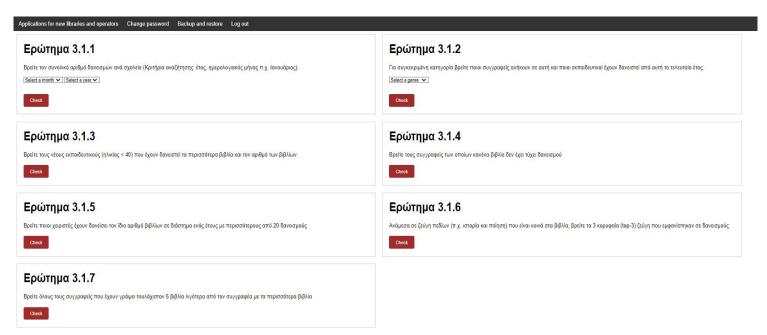

User Registration					
Full Name:

Password:					
Confirm Password:					
Email:					
Phone Number:					
Date of Birth:					
mm/dd/yyyy					
Category:  O Student O Professor					
School Unit:					
Select School Unit	~				

Εδώ ένας μαθητής ή καθηγητής που επιθυμεί να γίνει μέλος της εφαρμογής συμπληρώνει τα στοιχεία του επιλέγοντας και το σχολείο στο οποίο ανήκει(στο πεδίο School Unit υπάρχει droplist με όλες τις σχολικές μονάδες που βρίσκονται στο σύστημα και έχουν γίνει δεκτές από τον Administrator). Αφού συμπληρωθούν όλα τα πεδία της φόρμας ο χρήστης πρέπει να πατήσει το κουμπί 'Submit' για να καταχωρηθεί η αίτησή του. Μετά το πάτημα του κουμπιού 'Submit', εάν η καταχώρηση είναι επιτυχής μεταφερόμαστε αυτόματα στην αρχική σελίδα της εφαρμογής. Η αίτηση εγγραφής στο σύστημα γίνεται δεκτή μόνο μετά την έγκριση από τον αντίστοιχο Χειριστή. Μέχρι τότε ο μαθητής ή καθηγητής δεν έχει πρόσβαση στο σύστημα.

Πατώντας το κουμπί που βρίσκεται στην πάνω δεξιά γωνία της αρχικής σελίδας μεταφερόμαστε στην σελίδα όπου κάνει login ο Administrator:

	Adm	inistr	ator	_ogin	
Admin Userr	ame:				
Admin Passy	vord:				

O administrator συμπληρώνει τα στοιχεία του στην παραπάνω φόρμα (στην βάση έχουμε βάλει username: admin και password:123) και εφόσον αυτά είναι σωστά εισέρχεται στην κεντρική σελίδα του Διαχειριστή. Εάν τα στοιχεία που έχει υποβάλλει δεν είναι σωστά τότε πατώντας το κουμπί login παραμένει στην ίδια σελίδα. Η κεντρική σελίδα του Διαχειριστή είναι η παρακάτω:

Στο κεντρικό μέρος του της σελίδας βρίσκονται όλα τα ερωτήματα που μας ζητήθηκαν στην εκφώνηση για τον κεντρικό διαχειριστή. Πατώντας το κουμπί ckeck(αφού πρώτα έχει επιλέξει στοιχείο από τις droplist όπου χρειάζεται) εμφανίζονται οι απαντήσεις στο εκάστοτε ερώτημα σε νέα σελίδα. Για παράδειγμα αυτή είναι η απάντηση στο ερώτημα 3.1.4:

# **Authors With No Borrowings**

Authors	
Isabella Clark	
Emma Turner	
Emily Anderson	
Alexander Adams	
Jacob Harris	
Ethan Baker	
Mia Turner	
Mia Davis	

Στην μπάρα που βρίσκεται στο πάνω μέρος της κεντρικής σελίδας του admin έχουμε 4 επιλογές : 'Applications for new libraries and operators', 'change password', 'Backup and Restore' και 'Log Out'. Επιλέγοντας το τελευταίο μεταφερόμαστε στην αρχική σελίδα της εφαρμογής. Πατώντας change password εμφανίζεται η παρακάτω σελίδα:

Ο χρήστης εισάγει τον νέο κωδικό πρόσβασης και πατώντας update password , ανανεώνεται ο κωδικός του και μεταφέρεται αυτόματα στην κεντρική σελίδα του administrator.

Επιλέγοντας 'Applications for new libraries and operators', ο χρήστης μεταφέρεται σε νέο παράθυρο όπου εμφανίζεται μία λίστα από όλα τα σχολεία και τους αντίστοιχους operators που έχουν κάνει αίτηση εγγραφής στην βιβλιοθήκη. Δίπλα από κάθε αίτηση υπάρχουν δύο κουμπιά πουαντιστοιχούν στην αποδοχή και στην απόρριψη αντιστοίχως της αίτησης, όπως φαίνεται στην παρακάτω εικόνα.

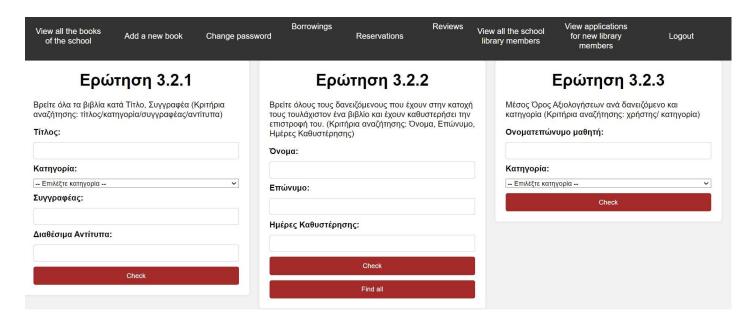

Πατώντας το κουμπί 'Accept' η Σχολική μονάδα και ο αντίστοιχος Χειριστής καταχωρούνται στην βάση ως approved και έχουν πρόσβαση στην εφαρμογή. Πατώντας το κουμπί 'Dismiss' καταχωρούνται στην βάση ως 'denied' και δεν έχουν πρόσβαση στην εφαρμογή. Μετά το πάτημα κάθε κουμπιού μεταφερόμαστε αυτόματα στην κεντρική σελίδα του Διαχειριστή.

Πατώντας το κουμπί 'Είσοδος χειριστή ' (που βρίσκεται στο πάνω μέρος της αρχικής σελίδας της εφαρμογής), μεταφερόμαστε στην φόρμα login του χειριστή

Ο εκάστοτε χειριστής συμπληρώνει τα στοιχεία του και εισέρχεται στην κεντρική σελίδα του Χειριστή. Εάν τα στοιχεία του δεν είναι σωστά τότε μετά το πάτημα του κουμπιού Login παραμένει στην ίδια σελίδα. Η κεντρική σελίδα του Χειριστή είναι αυτή που φαίνεται παρακάτω:

Στο κεντρικό σώμα φαίνονται τα τρία ερωτήματα της εκφώνησης που αφορούν τον Χειριστή. Και στα τρία ερωτήματα είναι απαραίτητη η συμπλήρωση τουλάχιστον ενός πεδίου. Αφού συμπληρώσουμε τουλάχιστον ένα πεδίο σε κάποια από τις τρεις φόρμες και πατήσουμε το κουμπί 'Check' μεταφερόμαστε στην αντίστοιχη σελίδα με τα αποτελέσματα. Παρακάτω παρουσιάζουμε τις σελίδες στις οποίες θα μεταφερθούμε πατώντας το κουμπί 'Check' στο ερώτημα 3.2.1,3.2.2,3.2.3 αντίστοιχα:

Πατώντας το κουμπί 'Delete' ο Χειριστής διαγράφει τον χρήστη και μαζί όλους τους δανεισμούς, κρατήσεις και reviews που έχουν γίνει από αυτόν. Μετά το πάτημα του κουμπιού μεταφερόμαστε αυτόματα στην κεντρική σελίδα του Χειριστή. Με το πάτημα το κουμπιού 'Deactivate' ο Χειριστής απενεργοποιεί τον λογαριασμό του χρήστη .Αυτό

σημαίνει ότι τα στοιχεία του χρήστη παραμένουν στην βάση αλλά αυτός δεν μπορεί να κάνει login και άρα δεν μπορεί να χρησιμοποιήσει την εφαρμογή. Μετά το πάτημα του κουμπιού μεταφερόμαστε αυτόματα στην κεντρική σελίδα του Χειριστή.

 'View applications for new library members': Εμφανίζει μια λίστα από όλους τους χρήστες των οποίων η αίτηση εγγραφής δεν έχει γίνει ακόμα δεκτή. Ο Χειριστής μπορεί είτε να την αποδεχτεί είτε να την κάνει dismiss μέσω των αντίστοιχων κουμπιών.

Εάν ο Χειριστής αποδεχτεί την αίτηση μέσω του κουμπιού 'Accept' τότε ο χρήστης καταχωρείται ως 'approved' στην βάση και άρα έχει πρόσβαση στην εφαρμογή. Εάν αντιθέτως ο Χειριστής πατήσει το κουμπί 'Dismiss' τότε η αίτηση του διαγράφεται από την βάση και προφανώς δεν έχει πρόσβαση στην εφαρμογή. Μετά το πάτημα οποιουδήποτε κουμπιού μεταφερόμαστε αυτόματα στην κεντρική σελίδα του Χειριστή.

'Logout': Μας μεταφέρει στην αρχική σελίδα της εφαρμογής

Εάν ο χρήστης κάνει login από την αρχική σελίδα της εφαρμογής μεταφέρεται στηνπαρακάτω σελίδα:

Στο κεντρικό σώμα της σελίδας βλέπουμε μία φόρμα που αντιστοιχεί στο ερώτημα 3.3.1 . Εκεί ο χρήστης συμπληρώνει τον τίτλο , ή τον συγγραφέα ή την κατηγορία του βιβλίου που ψάχνει και πατώντας το κουμπί 'Search for Book' μεταφέρεται σε μία σελίδα όπου παρουσιάζονται όλα τα βιβλία της σχολικής του μονάδας με τα χαρακτηριστικά που υπέβαλε ο χρήστης. Εάν ο χρήστης αφήσει όλα τα πεδία κενά και πατήσει το κουμπί 'Search for book' τότε θα μεταφερθεί σε σελίδα που περιλαμβάνει όλα τα βιβλία που έχει καταχωρήσει η εκάστοτε Σχολικά βιβλιοθήκη. Η σελίδα με την λίστα των βιβλίων είναι αυτή που φαίνεται παρακάτω:

Επιλέγοντας το κουμπί 'Make reservation' που βρίσκεται δίπλα από κάθε τίτλο βιβλίου , ο χρήστης μπορεί να κάνει μία κράτηση για τον συγκεκριμένο τίτλο. Εάν ο χρήστης δεν δικαιούται να κάνει κράτηση σύμφωνα με τους περιορισμούς που αναφέρονται στην εκφώνηση της εργασίας τότε μετά το πάτημα του κουμπιού θα μεταφερθεί στην παρακάτω σελίδα:

Εάν ο χρήστης δικαιούται να κάνει κράτηση και πατήσει το κουμπί 'Make reservation' τότε θα καταχωρηθεί στην βάση νέα κράτηση και ο χρήστης θα μεταφερθεί αυτόματα στην κεντρική σελίδα των χρηστών.

Από αριστερά προς τα δεξιά της μπάρας που βρίσκεται στο πάνω τμήμα της κεντρικής σελίδας των χρηστών παρατηρούμε τα παρακάτω κουμπιά:

• 'Reviews': Περνώντας το βελάκι πάνω από την επιλογή αυτή εμφανίζονται τρία κουμπιά όπως φαίνεται παρακάτω:

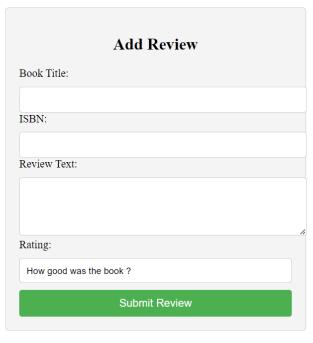

'My Reviews': Μεταφερόμαστε σε σελίδα που περιλαμβάνει όλες τις κριτικές που έχει γράψει ο χρήστης (ακόμα και αυτές που δεν έχουν ελεγχθεί ακόμα από τον Χειριστή εάν πρόκειται για μαθητή):

	My Rev	iews	
Title	Rating	Review Text	Status
The Forgotten Prophecy	5	review 1	approved

Στα δεξιά βλέπουμε εάν η κριτική έχει γίνει δεκτή, έχει απορριφθεί ή δεν έχει γίνει ακόμα δεκτή από τον εκάστοτε χειριστή. Για τους καθηγητές (των οποίων η κριτική δημοσιεύεται απευθείας) η στήλη αυτή έχει πάντα την τιμή approved

'Add review': Μεταφερόμαστε σε μία φόρμα υποβολής νέας κριτικής:

Ο χρήστης συμπληρώνει τα στοιχεία του βιβλίου για το οποίο θέλει να κάνει κριτική, την κριτική και επιλέγει με βάση τη κλίμακα Likert σε ποιο βαθμό του άρεσε το βιβλίο:

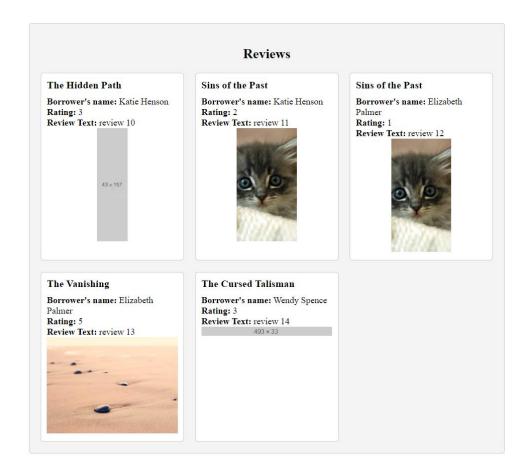

Εάν ο χρήστης συμπληρώσει στοιχεία βιβλίου το οποίο δεν έχει δανειστεί ποτέ και πατήσει το κουμπί 'Submit review', τότε θα μεταφερθεί στην παρακάτω σελίδα:

Εάν όλα τα στοιχεία είναι δεκτά και ο χρήστης έχει όντως δανειστεί το συγκεκριμένο τίτλο βιβλίου τότε πατώντας το κουμπί 'Add review' υποβάλλει την κριτική του και μεταφέρεται στην κεντρική σελίδα των χρηστών. Εάν πρόκειται για καθηγητή τότε η κριτική που μόλις υποβλήθηκε θεωρείται κατευθείαν 'approved' και άρα δημοσιεύεται , ενώ αν πρόκειται για μαθητή η κριτική θεωρείται 'not yet approved' και περιμένει την έγκριση του εκάστοτε χειριστή.

'See all the reviews': Μεταφερόμαστε σε σελίδα η οποία περιλαμβάνει όλες τις κριτικές που έχουν γίνει για βιβλία της Σχολικής Μονάδας στην οποία ανήκει ο χρήστης. Η συγκεκριμένη σελίδα έχει την παρακάτω μορφή:

 'My Borrowings': Ο χρήστης μεταφέρεται σε σελίδα που περιλαμβάνει όλους τους δανεισμούς (ενεργούς και μη):

# My BorrowingsTitleBorrowing DateReturn DateActual Return DateThe Cursed Talisman2023-04-012023-04-082023-04-04The Midnight Chronicles2023-05-232023-05-30

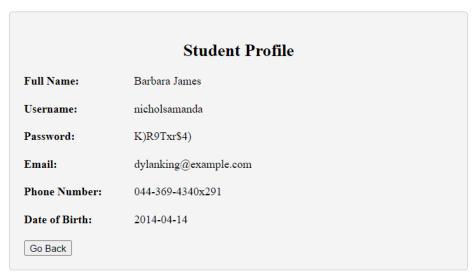

Εάν ο δανεισμός είναι ενεργός τότε προφανώς η στήλη actual\_return\_date θα είναι κενή. Εάν το βιβλίο έχει επιστραφεί τότε στο actual\_return\_date περιλαμβάνεται η ημερομηνία που ο χρήστης επέστρεψε το βιβλίο.

 'My Reservations': Ο χρήστης μεταφέρεται σε σελίδα που περιλαμβάνει όλες τις ενεργές του κρατήσεις

Στην σελίδα συμπεριλαμβάνεται ο τίτλος για τον οποίο έγινε η κράτηση, η ημερομηνία της κράτησης καθώς και η ημερομηνία που λήγει η κράτηση. Μέσω του κουμπιού 'Delete' ο χρήστης μπορεί να διαγράψει την κράτηση.

• 'My profile': Μεταφερόμαστε στην σελίδα που περιλαμβάνει όλα τα στοιχεία του χρήστη. Εάν πρόκειται για μαθητή τότε ο χρήστης μπορεί μόνο να δει τα στοιχεία του :

Εάν, ωστόσο, πρόκειται για καθηγητή τότε ο χρήστης μέσω της σελίδας αυτής μπορεί να αλλάξει τα στοιχεία του:

Πατώντας το κουμπί 'Update Profile' ο χρήστης/καθηγητής αποθηκεύει τις αλλαγές που έκανε στα στοιχεία του προφίλ του και μεταφέρεται στην κεντρική σελίδα των χρηστών. Σημειώνουμε ότι ο χρήστης /καθηγητής δεν μπορεί να αλλάξει τον κωδικό του από την παραπάνω σελίδα καθώς αυτό μπορεί να γίνει μέσω της σελίδας στην οποία οδηγούμαστε από το κουμπί 'Change Password'.

- 'Change Password': : Μας μεταφέρει σε σελίδα όπου μπορεί ο χρήστης να αλλάξει τον κωδικό του(αντίστοιχη με αυτή του administrator και του operator).
- 'Log out': Επιστροφή στην αρχική σελίδα της εφαρμογής.

## ΟΔΗΓΙΕΣ ΕΓΚΑΤΑΣΤΑΣΗΣ ΤΗΣ ΕΦΑΡΜΟΓΗΣ

Για την εγκατάσταση της εφαρμογής σε συστήματα Windows 10/11 απαιτούνται τα παρακάτω βήματα:

- Εγκατάσταση του ΧΑΜΡΡ
- Εγκατάσταση του MySQL Workbench
- Εγκατάσταση της NodeJS
- Εγκατάσταση των εξής Dependencies:
  - express
  - ❖ mysql2
  - **❖** ejs
  - express-session
  - connect-flash
  - nodemon
  - chalk
  - custom-env
  - html-js-confirm
- Τρέχουμε ως administrators το XAMPP και κάνουμε start την MySQL
- Ανοίγουμε το Workbench και προσθέτουμε ένα νέο connection μέσα στο οποίο ανοίγουμε τα αρχεία library-schema και library-insert που βρίσκονται μέσα στο folder MySQL
- Ελέγχουμε ότι τα host και user που βρίσκονται στο αρχείο database.js ταυτίζονται με αυτά που τρέχει η βάση μας, ελέγχοντάς το από το connection του Workbench . Σε αντίθετη περίπτωση τα τροποποιούμε κατάλληλα.
- Αρχικά τρέχουμε το schema αρχείο το οποίο περιέχει και όλα τα απαραίτητα constraints, triggers, views και indexes και στη συνέχεια τρέχουμε το insert αρχείο (προσοχή να MHN βρισκόμαστε σε safe updates mode στο Workbench, Edit -> Preferences -> SQL Editor)
- Ανοίγουμε το command window και μεταφερόμαστε στο path του folder Databases Project 2023 Team81 που κατεβάσαμε από το GitHub
- Εκτελούμε την εντολή npm start
- Ανοίγουμε έναν browser, δοκιμάστηκε σε Google Chrome και Microsoft Edge, και μεταφερόμαστε στη διεύθυνση localhost:3000
